Campaign Evaluation

Evaluate how successful the campaign was, based on the marketing objective

1. The campaign was successful based on our marketing objective because we generated 221 conversion which is above that of our marketing objective which is 200 conversion,,so we say that the campaign was successful.

1. The conversion rate was not successful because it was 9% which is less than the 10% marketing objective conversion rate.

1. The campaign's return on investment (ROI), was -negative
   - ROI = (total conversion value x5 - total cost)/total cost is _0.16

   - The three relevant KPIs at the campaign, ad group, ad, and keyword are
   - 1.social media marketing course
   - 2.Digital marketing basics
   - 3.Online marketing course

- ○ Based on my KPI calculations, the keywords that are subject to higher competition in Google Ads are

    1.social media marketing course

    2.digital marketing basics

    3.online marketing course

    The reasons are because they received many impression with a much lower CTR and high CPL.

1. The campaign was successful based on our marketing objective because we generated 221 conversion which is above that of our marketing objective which is 200 conversion,,so we say that the campaign was successful.

1. The conversion rate was not successful because it was 9% which is less than the 10% marketing objective conversion rate.

Recommendations for future campaigns

- Would you focus on certain ad groups, ads, keywords, or keyword match types? If so, which ones and why?
- **I will pause or remove keywords with low CTR** because having keywords with low CTR will cause Google to show my Ads less often. Having low CTR in Ad group can affect the average Quality score of the Ads and Quality score is a key factor tat influence how often the Ad will be shown

   I will use match types because using exact keyword matching will make sure that the AD is shown only to people who re searching for exactly what i am offering.

   I will set up an AB testing by **changing Ad copy.**
